

AZIZA BOBOJANOV (JURABAEVA)

FRONT-END WEB DEVELOPER

Summary

A Front-End Web Developer with a passion for tailored solutions seeking to contribute to a thriving, exciting, and growing company. Has experience in analyzing customer needs and working with teams. My background in Accounting has given me the skill to have a better understanding of Finance and Business Management.

Experience

General Assembly Engineering Fellow

New York, NY
Dec. 2018 to Mar. 2019

Front-End Web Development - understanding of how to write high-quality JavaScript code, building a dynamic, front-end to a web application using a modern JS library, such as React.

Back-End Web Development - building web applications from the ground up using a modern web language and framework like Ruby on Rails. Developing high-quality APIs using Node.js and integrate data from other apps into a project.

TD Bank Teller

Brooklyn, NY
May 2018 to Nov. 2018

Provided exceptional customer service.
Promoted new bank products and services to new customers.
Referred customer inquiries to appropriate bank departments.
Processed withdrawals upon balance verification.
Assisted with sales referrals and cross-selling programs as needed.
Notified manager of counterfeit currency in coordination with bank security personnel.

Belilovsky Pediatrics Receptionist

Brooklyn
June 2015 to Jan. 2018

Restored organization to personnel, financial and operational records and accelerated data input, processing and retrieval times.
Consistently praised by management for the quality and timeliness of reports, attention to detail, exemplary customer service delivery and team-player attitude.
Demonstrated proficiencies in telephone and front-desk reception within a high-volume environment.
Provided exceptional customer service by assisting account holders to troubleshoot problems which resulted in building client trust and prevent the loss of key accounts.

Integrated Financial Services Accounting Intern (Taxation)

New York
Dec. 2017 to Apr. 2018

Prepared accounts and tax returns.
Managed financial transactions and record keeping with strict attention to detail.
Learned how to work as part of the Accounting team to compile and analyze data, track information, and support the company or clients.

Projects

Front-End Restaurant App "Zarutto"

The idea of the project was to collaborate with UX designers and recreate an existing website by making it more functional.

The original website: <https://www.zurutto.com/>

New version <http://zarutto-test.surge.sh>

Recipe React App "Kaffeine231"

The app helps users to search for the top-rated recipes by typing in the keywords in the input section.

Deployed version:

Api: Edemam

<http://kaffeine231-recipesearch.surge.sh/>

Full-Stack Gallery App "JAK"

The app lets users discover saved exhibitions and upload their own by using the form. It also has an option of editing or deleting existing exhibits. As the Post MVP user registration form was implemented.
